SUCCESS STORIES

OES and Goldwind Partner to Advance Green Practices in Pakistan's Industrial Sector

OES and Goldwind have joined forces in a commitment to assist Pakistan's industries in adopting green practices and achieving Net Zero goals.

We are delighted to announce that OES and Goldwind have signed framework agreement to supply 150 MW of wind turbines for the Pakistan's Industrial Captive market, marking a significant milestone in our commitment to sustainable energy solutions.

Out of this 150 MW, 50 MW + is already in production in Goldwind factories and site construction has started. OES is offering complete one window solution which includes wind resource assessment, feasibility study, detailed engineering, supply of wind turbine from Goldwind, civil constructional works, wind turbine installation, testing and commissioning under Goldwind supervision along with electrical & control integration with existing system through a state of the art Micro Grid system to have different generation sources work together, provide smooth operation of the plant and optimization to get lower LCOE.

Goldwind is world's largest wind turbine manufacturer in the world with a global population of 115 GW+ with a market leadership position in Pakistan with 538 MW in IPP and Captive Market.

OES as local company has the biggest portfolio of renewable energy (Solar+ Wind), having in house capability of complete design, engineering, project management, construction, testing and commissioning, backed by OES trade mark after sales services!

OES and Ismail Industries: A Decade of Pioneering Absorption Chiller Installations

For a decade, OES has proudly partnered with Ismail Industries Limited, becoming Shuangliang Group's foremost client for Absorption chillers in Pakistan. In this enduring collaboration, Ismail Industries trusted OES for 16 successful Absorption chiller installations, including innovative types like Direct Fired and Esterified Steam Fired.

A key milestone is the installation of the first

Shuangliang Esterified Steam Fired Absorption chiller at Ismail Resin factory, boasting a 500 RT cooling capacity. With a total capacity of 5118 RT, Ismail Industries leads the industry, emphasising their commitment to cutting edge cooling solutions. This lasting bond not only highlights trust in OES capabilities but also signifies a thriving partnership that leaves a mark across industrial hubs in Pakistan.

OES and INNIO Jenbacher: Setting New Standards with Landmark Genset Replacement Achievement

Embarking on a journey together, the powerful partnership between OES and INNIO Jenbacher has reached new heights of achievement.

The recent accomplishment of our dedicated team in achieving the first-ever long block replacement activity for Type 4 (JGS420) in Pakistan's southern region marks a significant milestone in our collaborative journey. Gas genset block replacement brings improved reliability, efficiency, extended lifespan and cost effectiveness.

This accomplishment not only reinforces our combined reputation but also establishes a benchmark for forthcoming collaborations, positioning INNIO as one of the most diverse gas genset options in Pakistan. Coupled with the exceptional expertise of our trained OES service team, we offer comprehensive services, encompassing not only sales but also post-sales support and parts services for Jenbacher engines.

EXHIBITIONS AND AWARENESS PROGRAMS

OES Elevates Textile Asia Exhibition with Innovation and Sustainability Showcase

Textile Asia Exhibition wraps up on a high note with OES actively participating in fostering industry connections and showcasing cutting-edge technologies. The event solidifies Textile Asia's status as a premier platform for the textile industry. OES celebrates the dynamic showcase, reaffirming commitment to innovation and sustainability. Cheers to a successful event and anticipation for future textile innovations!

OES Partners with National Highway Authority & Motorway Police for Road Safety Awareness Session

In a concerted effort to combat the alarming rates of road accidents in Pakistan, OES recently collaborated with the National Highway Authority & Motorway Police for a groundbreaking Road Safety Awareness Session.

The seminar and workshop, led by the NH&MP, provided invaluable insights into safer road practices and emphasized the urgent need for improved skills and heightened awareness.

At OES, we prioritize the well-being of our people and believe in fostering a culture of continuous improvement through regular staff training, seminars and awareness sessions, ensuring a safe and conducive lifestyle that contributes to the collective betterment of society.

TRAINING AND DEVELOPMENT

OES and United Energy Pakistan Elevate Technical Expertise with Waukesha Gas Engine Training Session

In a collaborative effort between OES and United Energy Pakistan (UEP), a recent technical training session proved instrumental. Engaged participants from the Maintenance Department, including electrical and mechanical technicians, supervisors and engineers, actively immersed themselves in an insightful exploration of Waukesha Gas Engines. The training intricately covered essential components such as ESM, wiring, interface and functionalities encompassing speed control, fuel control, ignition system, AFR2, ESM2 & HMI overview and myPlant remote communication features. Our team recently organised a purposeful session aimed at bolstering UEP's technical prowess and expertise.

Fostering Skilled Workforce: OES and The Hunar Foundation Collaboration

OES prioritizes education and technical training to equip individuals with vital skills for professional success and innovation. Our On-the-Job Training (OJT) plays a crucial role in imparting practical, role-specific skills. Collaborating with The Hunar Foundation (THF) addresses the education-industry gap, nurturing a skilled workforce for Pakistan. This dual commitment ensures a powerful synergy, fostering a skilled, empowered, and innovative workforce.

EMPLOYEE ENGAGEMENT

OES Unites Teams in the Spirit of Competition and Collaboration at Orient Super League

The annual Orient Super League, proudly hosted by OES, stands as a powerful testament to our unity and collective spirit. In this thrilling league, teams come together, playing side by side, showcasing the true essence of teamwork. Beyond the competition, it's about learning from each other and growing as a united force.

Kudos to everyone involved in making Orient Super League a celebration of unity and teamwork!
