

## MESSAGE FROM MANAGEMENT

"If everyone is moving forward together, then success takes care of itself." – Henry Ford

Hard work, loyalty and diligence are the cornerstones of Orient's tremendous team.

We are celebrating our 25th work anniversary and there isn't any better moment than today, to appreciate Orient's team and wish you all good luck for many years to come. Through the years; starting from 1996, your abilities and efforts have helped Orient achieve major successes. We have all learned and grown over these past twenty-five years and management is lucky to have all of you as an important and valuable member of our team. We congratulate each one of you on this 25th anniversary milestone.

Let's vow to firmly hold core values of commitment and maintain service excellence. It has successfully brought us to where we are today and it will also take further in our pursuit of delivering best services to the industry and be an example.

## CELEBRATING 25 YEARS OF SERVICE EXCELLENCE

## SUCCESS STORIES

### Gatron Industries - Shuangliang

Gatron Industries Ltd. with its manufacturing facility located in the city of Hub, Baluchistan, on the outskirts of Karachi procured chillers from OES for their polyester manufacturing facility.

OES team managed to install 03 Nos. Shuangliang High COP Steam Operated Absorption Chillers of 450 RT cooling capacity each. After successful performance of the product and prompt OES after sale services, they replaced all existing 12 Nos. chillers with Shuangliang Steam Operated Absorption Chillers.

Gatron availed the opportunity to save the operating cost of steam by installing Shuangliang High C.O.P Steam fired chillers. They replaced all the Existing LG Steam Fired chillers with Shuangliang Steam fired chillers.

### Arabian Textile Mills - Jenbacher Gas Engine

In order to achieve low cost & reliable power generation, Arabian Textile Mills. decided to replace old gas engine engines with new latest technology and fuel-efficient gas engines from OES. After technical evaluation and considering financial aspect their technical team selected OES to provide Jenbacher Gas Engine for Power Generation, its Electrical Efficiency is 38.8%. Generator has been installed and commissioned and now in Operation since August 2021.

### Alfa Laval Waste Heat Recovery Boilers in Iraq at Al-Shamook Lucky Investment Limited

OES - Engineering team has supplied 2 Nos. Alfa Laval Waste Heat Recovery Boilers in Iraq at Al-Shamook Lucky Investment Limited. The cement plant is located in SAMAWAH, Iraq. Our scope involved; supply, installation supervision and commissioning of the complete project.

Steam produced from boilers is used in the cement manufacturing process through waste heat recovery project. The technical knowledge and attention to detail of OES Engineering team has made them well-grounded and a trusted name in Power Generation Industry.

## Valvoline Lubricants in Healthcare Sector of Pakistan

OES being the authorized distributor of Valvoline Lubricants in Pakistan is proud to be associated with Healthcare Sector of Pakistan. By delivering high end solution through Valvoline Engine Oils, OES has managed to help its customers to improve equipment reliability along with commercial viability.

Pakistan's leading hospitals including Aga Khan Hospital, Liaquat National Hospital, National Institute of Cardiovascular Diseases (NICVD), Tabba Heart, SIUT, Memon Medical Institute Hospital, Shifa International Hospital, Dr. Ziauddin Hospital, South City Hospital are OES satisfied customers using Valvoline Lubricants for their power generation needs.

With Valvoline High end products and OES efficient and trained team, Health Sector has managed higher engine protection and significant decrease in engine downtime

## GMSA Pvt. Ltd.

GMSA the top adhesive manufacturer in Pakistan for 45 years started new manufacturing unit in M3, Industrial Zone, Sahianwala, Faisalabad. Where OES got the opportunity to energize their production plant with Cummins. It was indeed a challenge for OES team as the local and international markets are highly competitive yet the team proved to be determined and despite all odds won the tender for OES.
